

## RSS 免費閱讀軟體:Sharp Reader

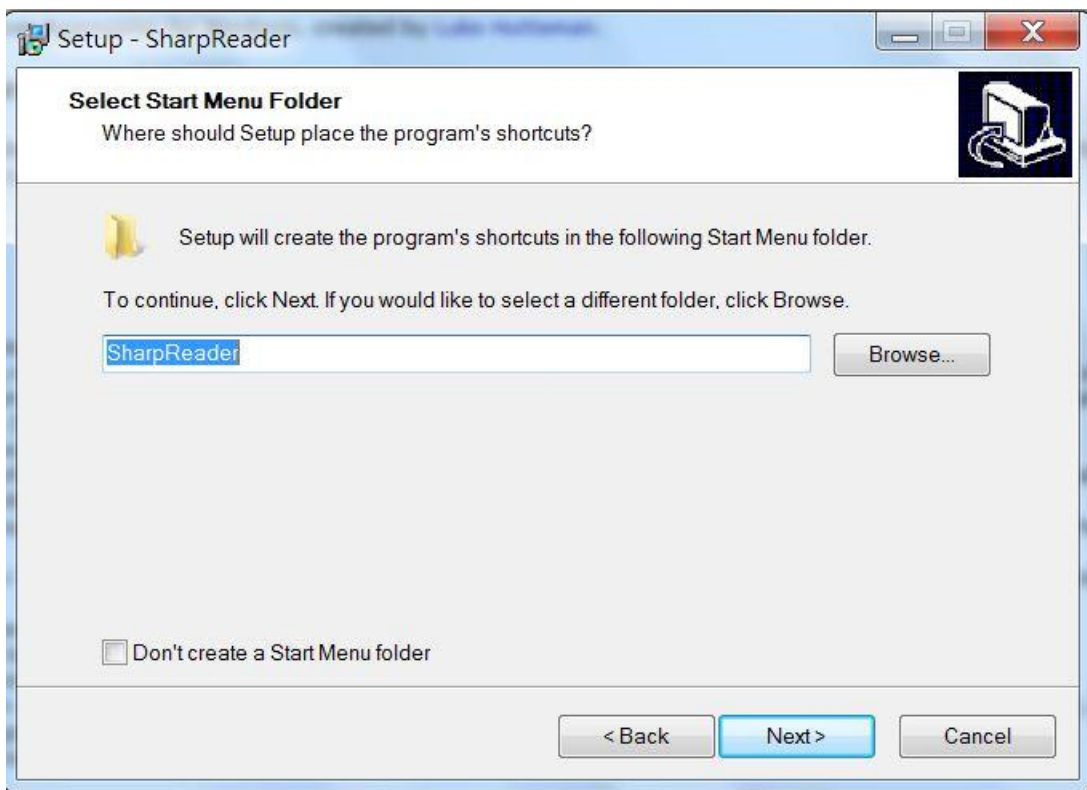

### 1. 線上安裝軟體

The screenshot shows the SharpReader website. At the top, the title "SharpReader" is displayed in a blue header. Below the header, a paragraph states: "SharpReader is an RSS/Atom Aggregator for Windows, created by Luke Hutteman." The next line says: "To get the latest version (0.9.7.0), either download **the installer** or the **zip-file**." The word "the installer" is highlighted with a red box. A final paragraph reads: "Prior to running SharpReader, you will need to install the .NET Framework, version 2.0 or version 1.1 SP1. If you do not currently have the .NET Framework installed, you can get it at [windowsupdate](#), or [here](#)."
